

Accounting

Take a look at D'Youville

Thanks for your interest in D'Youville College! We hope you'll take a closer look at who we are and the many advantages we offer.

Your college education will soon become one of your most valuable assets. A degree from D'Youville can open many doors for you and help ensure future success in the career of your choice.

We take great pride in the quality of education we provide and in the respect that D'Youville graduates are given in the working world.

Dedicated faculty who help make the D'Youville difference

At D'Youville, all your classes, labs and seminars will be taught by talented, dedicated faculty members who are at the forefront of their fields – never by teacher aides or assistants.

We take your education very seriously, and we're committed to educating you for life.

A career in Accounting

As an accountant, you'll work to prepare, analyze and verify financial documents which are provided to the public, management and/or government. Accountants are crucial to helping ensure that firms run efficiently, keep accurate records, and pay their taxes properly and on time.

Management accountants record and analyze the financial information of the companies for which they work. In this capacity, you would also be responsible for cost and asset management, budgeting, strategic planning, and preparing financial reports for stockholders and regulatory agencies.

In addition, various federal, state and local governmental agencies employ government accountants to maintain and examine their records and audit the records of businesses and private individuals.

Advantages that set us apart

- Students complete specialized coursework in intermediate and advanced accounting, auditing, corporate finance, personal and corporate taxation, and not-for-profit accounting.
- Our program is accredited by the International Assembly for Collegiate Business Education.
- Classes are kept small to ensure individualized attention.
- We offer internships with a number of high-profile companies for hands-on experience.
- Graduates from our four-year program enjoy a high career placement rate.*

Career opportunities in your field

As the economy continues to grow, so does the demand for accountants. Career opportunities are available in public accounting, private industry accounting, government and not-for-profit accounting, and financial services. An accounting degree will prepare you for employment in a wide range of occupations including accountant, auditor, appraiser, budget and loan officer, financial analyst, bank officer, FBI special agent and securities representative.
