

TEST-TAKING TIPS FOR MULTIPLE CHOICE TESTS

by Mary Applegate (updated fall 2015)

WHAT IS THE BEST WAY TO STUDY FOR MOST COLLEGE TESTS?

As you're studying, predict the questions that will be on the test. Then design your own test with those questions (study partners).

GENERAL TIPS

- 1.) Study each day as you move through the material rather than cramming.
- 2.) Be positive. Think of your test as a challenge, not as something you dread.
- 3.) In the exam room, arrive on time and sit where YOU are most comfortable.
- 4.) Don't worry about when other students hand in their tests. Take as much time as you are allowed.
- 5.) Don't leave multiple choice test questions blank (unless you will be penalized for answering them incorrectly).
- 6.) Don't change answers unless you are absolutely sure your first answer is incorrect.

EXCLUDING CHOICES

If you don't recognize the words in a choice, that choice is probably incorrect; exclude it.

QUALIFYING WORDS

-every

-not
