- **Amount:** Varies
- **Description:** Native American learners currently make up just one percent of all postsecondary students, and these small numbers are due to several factors stretching back hundreds of years. Colonization may be over, but this student population is still challenged by discrimination, cultural misappropriation, lack of access and a scarcity of support programs. In this guide, Native American and non-tribal students can learn about some of the trials facing this community of learners while also tapping into a range of resources meant to bolster Native American student numbers and support them while in school. Readers can also gain expert insight from Dr. Lee Bitsóí, Chief Diversity Officer at Stony Brook University and a proud member of the Navajo Nation.
